Current Progress at the Site

This facility is one of EPA Region III's high priority RCRA corrective action sites. EPA and EPA's contractor recently conducted an Environmental Indicator (EI) inspection at this facility to determine if RCRA Corrective Action is necessary.

EPA is currently evaluating the data gathered during this site evaluation. If releases are identified, EPA will determine if a facility investigation or clean-up measures are necessary to protect human health and the environment.

Site Responsibility

RCRA Corrective Action activities at this facility are being conducted under the direction of EPA Region 3 with assistance from the State.
